

## Junior Full-Stack Developer

 +91 9104775971

 Pune

 faizaankhanpathan1@gmail.com

B.Tech Computer Science graduate with hands-on experience in full-stack web development using the MERN stack. Skilled in building RESTful APIs, database-driven applications, and responsive front-end interfaces using React.js. Experienced through internships, academic projects, and freelance work involving real-world development workflows. Actively seeking an entry-level full-stack or backend developer role to gain strong industry exposure and grow as a professional software engineer.

## EDUCATION

BTech CSE : 7.85 CGPA

2020 - 2024

12<sup>th</sup> Grade CBSE : 80.60%

2019 - 2020

10<sup>th</sup> Grade CBSE : 71.40%

2017 - 2018

## SKILLS

## Programming Languages :

- JavaScript
- Python
- C, C++

## Core Technologies :

- JavaScript (ES6+)
- React.js
- Node.js
- Express.js
- MongoDB

### Frontend and Backend :

- HTML5
- CSS3
- RESTful APIs
- MySQL
- API Integration

### Tools & Platforms:

- Git & GitHub , VS Code
- Postman , Anaconda

## WORK EXPERIENCE

## App Developer Intern

**JAN 2024-JUL 2024**

- Developed and maintained full-stack application modules using JavaScript, Node.js, Express, and REST APIs.
- Designed and implemented frontend interfaces with a focus on usability and responsiveness.
- Built backend APIs and managed application data storage.
- Collaborated with team members to debug, optimize, and improve application performance.

## Tagwerk Dashboard Development (Freelance)

**AUG 2025 - OCT 2025**

- Implemented frontend components using React.js, HTML, and CSS.
- Built backend services using Node.js and handled data storage using MySQL.
- Worked with team to understand requirements, design solutions, and deliver functional features.
- Used AI-assisted tools to implement specific features within the web application, supporting faster development of selected components.

## Project: Attention Span Analysis Application

AUG 2023 – DEC 2023

- Developed a web-based system to analyze student attention span using facial analysis techniques.
- Built backend services using Flask and integrated them with a JavaScript-based frontend.
- Implemented real-time result visualization through a web interface.
- Features included eye gaze detection, head position tracking, and face recognition.
- <https://ieeexplore.ieee.org/document/10575321>

## CERTIFICATIONS

## IELTS Certification

SEP 2024

- Overall Band Score : 7.0
